
Nowak Patrick

Cybersecurity / Systems & Network Administrator Apprentice

Computer Science student specializing in cybersecurity, systems, and networks, with hands-on experience in infrastructure deployment and network operations.

Strong interest in cybersecurity, with practical experience in system monitoring, network security, and vulnerability analysis (CTF). Seeking an apprenticeship (M1) to further develop skills in security engineering and secure infrastructures.

Hard Skills

Security & Networking
TCP/IP, DNS, DHCP, HTTP(S), Network analysis

Security Tools
Wireshark, Autopsy, Volatility

Scripting
Python, Bash

Systems
Linux (Kali), Windows

Soft Skills

Communication & Human Relations

- Collaboration
- Communication
- Empathy
- Conflict Resolution
- Ability to Motivate Others

Organisation & Leadership

- Organization
- Meeting Deadlines
- Planning
- Team Management
- Decision-Making

Currently Learning

Cloud security fundamentals, vulnerability management
Actively preparing for the HTB Certified Junior Cybersecurity Associate (CJCA)
Practicing penetration testing through hands-on labs (Hack The Box, CTFs)

Languages

French: Native language

Polish: Fluent / Bilingual proficiency

Anglais : B2

PROFESSIONAL EXPERIENCE

Systems & Network Administrator – Apprenticeship
Company Viapass (Event Industry) – Cannes
Since October 2025

- Deployment and configuration of IT and network infrastructures in dynamic environments
- Setup and management of network services (LAN/WAN, Wi-Fi, VLANs)
- Monitoring systems and network performance to ensure high availability
- Troubleshooting incidents and ensuring service continuity during live events
- Implementation of security best practices and access management

Member – Ynov Cyber Crew CTF Team
Since October 2025

- Solving real-world security challenges (network, web, crypto)
- Analysis of vulnerabilities and system behavior
- Collaborative problem-solving in team environments
- Use of Docker for containerized environments

Summer Job – Multi-Skilled Craftsmanship
2 years

- Versatile experience in manual and technical work
- Maintenance, repairs, installations, and small construction projects
- Hands-on problem solving and practical work across various tasks

PROFESSIONAL INTERNSHIP

Viapass – Palais des Festivals de Cannes (2025)
Event Network & IT Support Technician – Internship

- Deployment of temporary network infrastructures for conferences and trade shows
- Technical support for exhibitors and event staff
- Configuration of network equipment (switches) and connectivity management
- Coordination of technical interventions and on-site IT logistics

INTERESTS

- Automobiles
- Motorsports
- New technologies
- Sports
- Video Games

EDUCATION

Bachelor's Degree in Computer Science
Ynov Sophia Campus – In progress

Master's Degree in Cybersecurity
Ynov Sophia Campus – Starting in 2026

French General Baccalaureate – Majors in Mathematics and Computer Science (NSI)
Lycée Fénelon, Grasse — 2023
